

Scalability & Future Plan

Date	13 July 2026
Team ID	XXXXXX
Project Name	Credit Card Approval Prediction
Maximum Marks	1 Mark

Scalability & Future Plan:

Current System Limitations:

S.No	Limitation	Impact	Priority to Address (High / Medium / Low)
1	Model trained on a limited dataset	May reduce prediction accuracy for diverse applicants	High
2	No database integration	User information is not stored	Medium
3	Application supports basic prediction only	Limited functionality for end users	Medium

Scalability Plan:

S.No	Scalability Aspect	Current State	Proposed Upgrade / Solution
1	User Load	Supports a small number of users	Deploy on cloud infrastructure with auto-scaling
2	Data Storage	No database is used	Integrate MySQL or PostgreSQL to store user records
3	Performance	Suitable for small datasets	Optimize the ML model and use caching for faster predictions
4	Security	Basic input validation	Add user authentication, HTTPS, and data encryption

Future Roadmap:

Phase	Planned Feature / Enhancement	Target Timeline	Expected Impact
Phase 1	Improve prediction accuracy using a larger dataset	1 Month	More reliable predictions

Phase 2	Add database integration for storing applicant information	2 Months	Better data management
Phase 3	Implement user login and authentication	3 Months	Improved security and personalized access
Phase 4	Deploy a scalable cloud version with analytics dashboard	4 Months	Supports more users and provides d
